Ref. № \_\_\_\_\_

**Subject: Approval of the Training Courses and Recognition of their conformity to the State Civil Aviation Authorities requirements of the Russian Federation and Resumption of its approval.**

The State Civil Aviation Authority of Russian Federation has considered the organizational arrangements of the courses, contents of training programs and facilities used for purpose of Airbus 320-200, A-310 cockpit crew flight simulator training and emergency training and come to the following conclusion:

Jordan Airline Training and Simulation (JATS) –Alia International Airport AMMAN (JORDAN) has been certified by La Direction Generale de l'Aviation Civile (DGAC) of Joint Aviation Authorities (JAA).

- The methods, programs and technical facilities provide an effective cockpit crew training. Official training manual and flight manuals are written in English.
- Flight simulator Airbuss 320-200, A- 310 certified by La Direction Generale de l'Aviation Civile (DGAC) of Joint Aviation Authorities (JAA) may be used for training Russian crew members.
- The methods, contents, quality and form of evaluation of knowledge and skills (more than 75% of the positive written answers for the pilots) provide effective knowledge control.
- The training programs for pilots correspond to the State Civil Aviation Authorities requirements of the Russian Federation.

The approval of Flight Training Centre Jordan Airline Training and Simulation (JATS) –Alia International Airport AMMAN (JORDAN), training course is valid for 18 months from date of signature this document. Resumption of approval validity will be possible by the mutual agreement if there are no changes in the programs, methods and facilities.
